

Pre-licensing Education

Prior to taking the producer licensing exam in Tennessee, state law requires licensing applicants to complete pre-licensing education — Tennessee Code 56-6-105 (a) (1). State law allows pre-licensing education now to be taken online. PIA, in partnership with Able Incorporated, is pleased to offer online pre-licensing education for property and casualty, life and health, and Series 6 and 63.
